(+ ) with High Roof (option 360)

\* Maximum payload figures includes driver and is subject to change dependent on variances in features, options and trim levels.

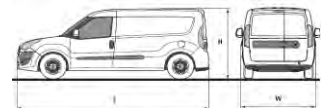

\*\* With major Payload (option 943)

\*\*\*Fuel Consumption MPG (l/100km). (EC Regulation 715/2007 as amended by 692/2008).

The CO2 emissions test figures shown in the table do not express or imply any guarantee of the emissions or fuel economy of a vehicle in the class in question. All the figures are based on tests conducted on vehicles with standard wheels and tyres.

Optional or Accessory wheels and tyres may have an effect on the emissions or fuel consumption of a vehicle.

Fuel consumption is directly affected by the length of the journey; number of passengers and the weight of payload carried; individual driving style; road and traffic conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle such as the addition of a roof rack. Your fuel economy will vary based on these and other factors and, for these reasons; many drivers may not achieve the EU fuel economy figures in day-to-day driving, although the vehicle is technically capable
