\*All prices shown are the manufacturer's recommended retail prices. The "On The Road" Price includes delivery to the dealer premises, number plates, a one-litre bottle of oil and a four-litre starter pack of AdBlue including funnel, 12 months government road fund licence (depending on CO<sub>2</sub> emissions) and the First Registration Fee of £55. Other goods or services supplied by agreement between the customer and the dealer are not included. ^Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass, Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue® tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and reduced Payload, and may increase CO<sub>2</sub> and decrease MPG figures. † Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site [www.vca.gov.uk](http://www.vca.gov.uk). For more information on CO<sub>2</sub> banding and Company Van Tax Benefit in Kind go to [www.renault.co.uk](http://www.renault.co.uk)

\*All prices shown are the manufacturer's recommended retail prices. The "On The Road" Price includes delivery to the dealer premises, number plates, a one-litre bottle of oil, four-litre AdBlue® starter kit, 12 months government road fund licence (depending on CO<sub>2</sub> emissions) and First Registration Fee at £55. Other goods or services supplied by agreement between the customer and the Dealer are not included. No CO<sub>2</sub> or MPG data published for base Platform Cab as the final kerb weight of the vehicle is not defined until the body is fitted. Published maximum payload excluding driver is subject to change based on variances in features, options and trim level shown. ^Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass, Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue® tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to manufacturing tolerances and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, can result in a higher Kerb Mass and reduced Payload, and may increase CO<sub>2</sub> and decrease MPG figures. † Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site [www.vca.gov.uk](http://www.vca.gov.uk).
